High performance
with a wide range of
solutions and options.

Product description

The Bizerba Kclass II range achieves impressive results in all retail tasks: weighing, transactions, printing, advice, and the presentation of advertising and cross-selling. The KH II 400 hanging scale is specially developed for the fresh fish counter. The cleverly designed weighing tray ensures that no moisture drips onto the casing or connections even when weighing wet products.

The open PC platform offers maximum performance and is ideal for proactively providing advice to customers. It has enough reserves to cope with new features or customer-specific requirements in the future too. Even the use of 3rd-party software poses no problems.

The remarkably easy paper-change function sets the new Easy Load printer apart. It is possible to replace key components using virtually no tools. Daily cleaning of the scale can be completed quickly and simply too, thanks not least to its ergonomic design, Easy Clean surface of the housing and the newly developed frameless Easy Clean display.

KH II 400 with 12.1" operator display

Highlights

- Easy Clean for quick and easy cleaning of the scale
 - Surface: problem free removal of stray labels
