BIZERBA

Access to the future. Enjoy the benefits of multifunctionality in a compact design. Comfortable, intuitive and easy to work with. Cleaning made simple thanks to Easy Clean.

More information
High performance
with a wide range of
solutions and options.

Product description

The XC 300 fulfills all essential retail tasks: labeling, printing, transactions, weighing, advertising and advising. This allows it to be used individually and flexibly in the existing store concept. The multifunctional device is an ideal price labeler for pre-packed products. Combined with a cash register drawer it can be used at the same time as a high-performance checkout solution. In conjunction with an external load receptor it is a perfect weighing solution.

The open PC platform is high performance and future-proof. New functions or customer-specific requirements can be realized: quickly, easily and affordably.

Even the use of 3rd-party software presents no problem. The Easy Load printer stands out in terms of its easy paper change function. Daily cleaning of the XC 300 can be carried out quickly and easily. This is supported by the compact design, the Easy Clean housing surface and the frameless Easy Clean display.

XC 300 with 10.1" operator display

Highlights

- Labeling, printing, transactions, weighing, advertising and advising, all in a compact design.
- Easy Clean for quick and easy cleaning
 - Surface: problem-free removal of stray labels
