High performance
with a wide range of
solutions and options.

Product description

The MC II 500 Pro meets the need for a modern self-service scale. Its stand opens up opportunities for new store concepts. The optimally ergonomic weighing tray is designed in the shape of a fruit bowl. Loose items cannot fall out during weighing. A powerful and open PC platform ensures high performance. The large RAM has sufficient memory to let you implement new features or individual requirements. Make label removal easier for your customers: The integrated LED bar flashes as soon as the label is done being printed. You are flexible in terms of the amount of information to be printed since the linerless printer with auto-cutter automatically adjusts the label length. Save time during cleaning and roll changes: The printer works with large linerless rolls with a diameter of 150 mm. Together with cleaning agents they can be conveniently stored in the integrated storage space of the stand.

MC II 500 Pro stand version with stand

Highlights

- High-end PC scale with a powerful Intel® Quad Core processor: More performance for optimized graphics while consuming minimum energy
- Large RAM: Ideally suitable for new features and requirements
- Current Windows and Linux operating system: 64 bit
- Large, brilliant 15.6" colour touch display for intuitive operation
- Linerless printer with auto-cutter function:
 - Up to 500,000 cuts depending on the paper and adhesive used, tested with Bizerba linerless paper
 - Easy cleaning with receipt paper
 - Intuitive operation: Blue LED bar as a visual indication for label removal
 - Flexible label length and large roll diameter
- Weighing tray/pan: Easy handling, removable via bayonet fitting, dishwasher-safe, breakproof
- Easy Clean for quick and easy cleaning
- Storage space for replacement label rolls or cleaning materials accessible from both sides
- High-end Bizerba software package:
 - RetailPowerScale scale software
 - RetailApps for additional functionality
 - RetailFramework
 - RetailIntegratorsKit (RIK) for 3rd-party software

MC II 500 Pro table-top version

Storage space accessible from both sides
